Plastic pollution ranks as one of the most serious pollution problems choking our planet. Far more than an eyesore, a rising tide of plastic waste threatens human health, wildlife, communities and economies around the world. We appreciate your help reducing plastic pollution by participating in or hosting a clean up. The data you collect are part of the solution. By submitting your data, you will also help us identify polluted sites that provide important habitat for birds. If your cleanup involves multiple groups, be sure that your bird observations do not overlap.

**Please return this form to your cleanup coordinator or, if there is no coordinator, submit your data to [www.migratorybirdday.org/events](http://www.migratorybirdday.org/events). If you are unable to submit online, mail or email it to:**

DEAR CLEANUP COORDINATOR:
Thank you for your hard work, dedication and valuable time spent for this important cause! We appreciate your commitment and passion for reducing plastic pollution. Before you complete this form, compile all data from the Volunteer Bird and Trash Data Forms. For each item of trash, add the total number of pieces and enter this number in the “Total” box on the back of this data form. Numbers are the only valid form of data, so please DO NOT use words or check marks in the boxes next to ocean trash items. Summarize bird data by compiling a list of species and the total number of each observed. Be sure to check that total numbers represent different individuals and that individuals are not counted by multiple cleanup groups.

Submit your Cleanup Data to: www.migratorybirdday.org/events/
Submit your Bird Observations to: www.ebird.org (User Name: EFTA_BirdDay, Password: WMBD2019DMAM)
